

Name	Areas of interest				
	1	2	3	4	5
Anna Oudin	Environmental epidemiology	Air pollution	Mental health	Cognitive medicine	Epidemiological methods
Annika Idahl	Ovarian cancer	Endometrial cancer	Etiology	Early detection	Sexually transmitted infections
Beatrice Melin	Molecular epidemiology	Cancer	Brain tumors		
Bethany Van Guelpen	Molecular epidemiology	Colorectal cancer	Etiology	Early detection	Lifestyle
Birgitta Stegmayr	Quality registers	Cardiovascular epidemiology	Stroke epidemiology	MONICA project and cardiovascular methodology	Cardiovascular risk factors
Christel Häggström	Cancer epidemiology	Survival analysis	Register-based research	Cohort studies	Prostate cancer
Björn Gylling (adjungerad)	Colorectal cancer	Inflammation	One carbon metabolism	Epidemiology	Tumor heterogeneity
Björn Sundström	Inflammation	Fatty acid metabolism	Salt intake	Rheumatic diseases	Physical activity
Dmitry Shungin	Bioinformatics	Genetic Epidemiology	Dentistry	Causal Inference	Cardiometabolic Disease Traits
Ingvar Bergdahl	Environmental pollutants	Biomarkers	Biobank study design	Metals	Omics
Jan-Håkan Jansson	Cardiovascular epidemiology	Myocardial infarction	Atrial Fibrillation	Venous thromboembolism	Hemostasis
Johan Hultdin	Biochemical markers	Vitamins (e.g. B and D), minerals (e.g. iron), antioxidants and other nutrients	Malignant and non-malignant diseases	Interactions involving genes, nutrients, environment, lifestyle	Genetic markers, epidemiology
Johan Styrke					
Jonas Andersson	Cardiovascular epidemiology	Atrial Fibrillation	Physical activity	Cardiovascular disease	Sudden cardiac death
Jörn Schneede	Breast- and colorectal cancer	Pulmonary hypertension	Etiology	Metabolic markers	Treatment monitoring
Kjell Grankvist	Biochemical markers	Preanalytical factors	Lung cancer		
Lars Johansson	Venous thromboembolism	Atrial fibrillation	Groin and umbilical hernia	Hemostatic risk markers	
Maria Wennberg	Nutritional epidemiology	Environmental pollutants	Lifestyle	Cardiovascular disease	Type 2 diabetes
Marcus Lind	Venous thromboembolism	Hemostasis	Atrial fibrillation	Hematology	

Marcus Schmitt-Egenolf	Quality registers	Pharmacoepidemiology	Healtheconomy	Psoriasis	Melanoma
Marie Eriksson	Cardiovascular epidemiology	Statistical methods	Quality registers	Stroke	Socioeconomic status
Martin Rutegård	Surgical complications	Register-based research	Colorectal cancer	Esophageal cancer	Clinical biomarkers
Mattias Sandström	Genealogy	Register-based research	Historical demography	Church records	SQL
Mårten Werner	Hepatology	Inflammatory bowel disease	Epidemiology	Alcohol liver disease	Gastrointestinal cancer disease
Patrik Wennberg	Lifestyle	Physical activity	Sedentary behaviour	Cardiovascular disease	Type 2 diabetes
Per E Gustafsson	Social inequalities in health	Life course epidemiology	Social epidemiology	Area effects on health	Gender and health
Per Fransson	Clinical research	Prostate cancer	Quality registers	Toxicity	Patient-reported
Rickard Palmqvist	Pathology	Colorectal cancer	Molecular epidemiology	Folate metabolism	Metastatic disease <i>and</i> Gastrointestinal diseases
Robin Myte (adjungerad)	Statistics	Molecular epidemiology	Cancer	One-carbon metabolism	Energy metabolism
Solbritt Rantapää Dahlqvist	Inflammatory diseases/ rheumatic disease	Analyses of biomarkers (inflammatory related)	Experience of multiplex analyses	Risk factors	Early diagnosis-individuals at risk
Sophia Harlid	Molecular Epidemiology	Epigenetics	Breast and colorectal cancer	Endocrine disruptors	Biomarker discovery
Stefan Söderberg	Cardiovascular epidemiology	Population based surveys	Cardiovascular diseases incl PAH	Glucose tolerance	Quality registers
Stina Bodén (adjungerad)	Nutritional epidemiology	Inflammation	Colorectal cancer	Lifestyle	Cardiovascular disease
Tommy Olsson	Obesity	Diabetes mellitus	Type 2	Insulin resistance	Clinical trials
Urban Lindgren	Economic geography	Industry dynamism and regional development	Labour market	Geographical mobility (migration,	Ethnic and social integration

				commuting, job-to-job mobility)	
Xavier de Luna	Statistics	Causal inference	Life course studies	Register data	Health and welfare
